### Defect notification procedure

Any visible defects that are found must be reported to us in accordance with the standard conditions of the German clothing industry (§ 7 Defect notification) within 12 calendar days of receipt of the goods, and written notification of invisible defects must be provided as soon as they are discovered in accordance with the legal guarantee conditions. The customer must be willing to accept slight colour differences in the goods, which is not considered to be a defect. Regardless of any negotiations that have taken place concerning complaints, we reserve the right to object if defect notifications are not received within the specified time limit or are not reported correctly. Defective goods must be returned with the original delivery note, the invoice or a relevant photocopy. Alternatively, the goods must be used in accordance with our instructions and we will then be entitled to choose whether to repair or replace them at our cost within a reasonable period of time. Under no circumstances can we be held liable for losses, damage, costs or consequential damage of any kind that occurs in connection with the use of our goods. No replacements or refunds will be given for embroidered or printed items. In case of unauthorized return of goods we reserve the right to deduct a handling charge.
